# Trend Guide 2022

L. R. BRANDS™  
AN OATEY INNOVATION

# Elevate your shower design.

## Sophisticated Style

Design is an integral part of the QuickDrain experience. *Elegance and performance* working together in tandem, a seamless blend of style and engineering.

## Innovative Shower Solution

Beautiful design is one thing. Pairing it with superior performance is another. Every engineering and design choice was intended to make QuickDrain *as efficient as it is appealing* and are flexible for use at the job site. With pre-sloped PET panel kits, QuickDrain shower systems can be installed in a matter of hours.

## Sustainability

As part of our commitment to minimize our environmental footprint, we use *100% recycled plastic bottles* (Polyethylene Terephthalate or PET) to manufacture our QuickSlope shower panels. These non-reactive, economical and shatterproof parts do not degrade over time and perform even under the toughest conditions at 145 PSI.

## The Future of Curbed and Curbless

QuickDrain can be installed with a curbless entrance, creating an *easy, seamless transition* from dry to wet areas in the bathroom. It is also an attractive choice for showers with a curb *serving as the barrier* between the shower pan and the rest of the bathroom floor.

### SQUAREDRAIN

Square Drain is an elevated point drain shower system that stands out from the rest for its design, ease of use and versatility – helping homeowners, designers and installers create a spa-like bathroom experience.

### SHOWERLINE & PROLINE

From wall-to-wall, QuickDrain linear drain systems provide total surface coverage, improving water evacuation. With a variety of styles to choose from, there are a myriad of ways our linear systems can turn the average bathroom into a welcome break from the everyday.

### WALLDRAIN

WallDrain offers the ultimate in shower luxury and design innovation, pushing performance to its limit. Because WallDrain is built into the wall instead of the floor surface, it offers a totally concealed and sleek look. You've never seen a drain like this before!
