

L. R. BRANDS™
AN OATEY INNOVATION

Stunning luxury that takes showering to a whole new level.

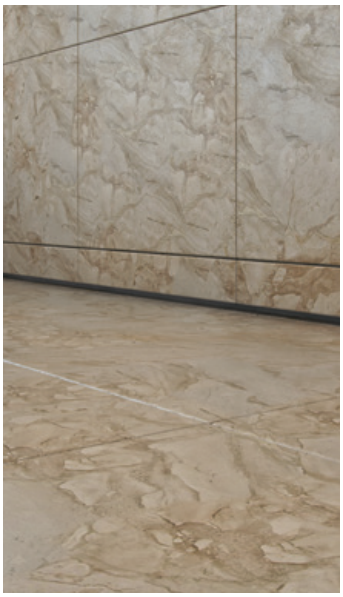

WallDrain offers the ultimate in shower luxury and design innovation, pushing performance to its limit. It breaks the traditional rules of shower drain systems and goes beyond the limits of convention.

Because WallDrain is built into the wall instead of the floor surface, it offers a totally concealed and sleek look. You've never seen a drain like this before.

Photo by Nat Rea

A more sophisticated shower solution.

Design is an integral part of the QuickDrain experience. Elegance and performance working together in tandem, a seamless blend of style and engineering.

Elevate your shower design. QuickDrain is a sophisticated curbed or curbless total shower solution, full of refined detail.

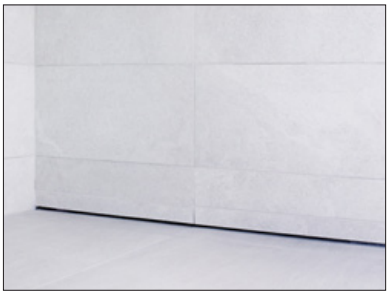

Experience. Design. Authenticity. Quality.
Beautiful design is one thing. Pairing it with superior performance is another. Every engineering and design choice was intended to make QuickDrain as efficient as it is appealing.

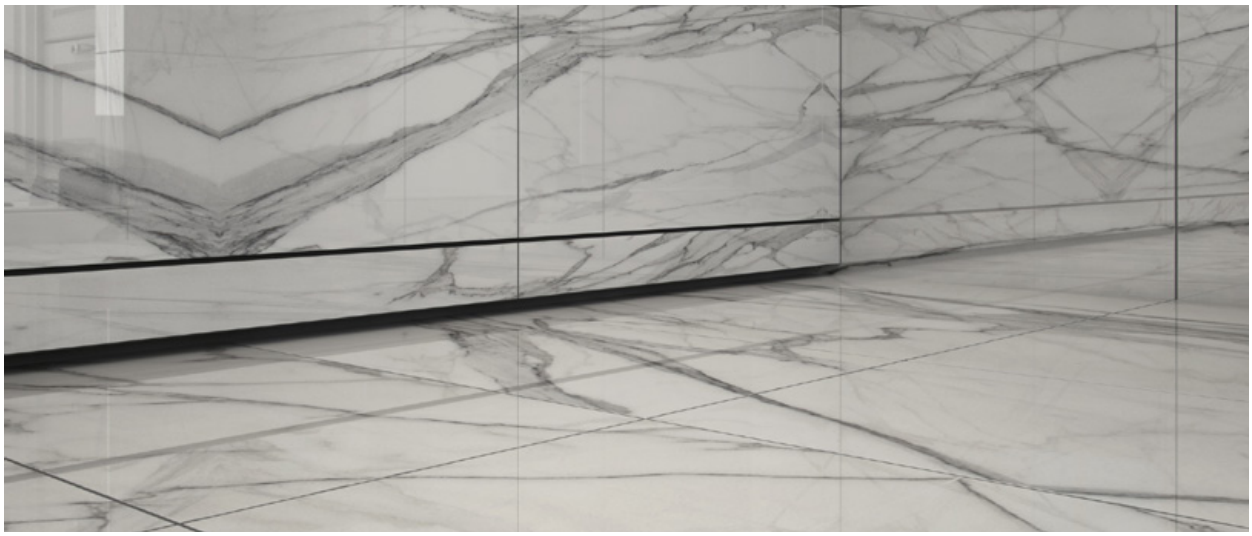

ELEGANCE IN DESIGN
Open up a world of design possibilities.

EASY ACCESS DRAIN COVER
A series of magnets allow for simple removal and reattachment.

CLEAN LINES
Create a seamless visual flow within your bathroom.

Performance in curbless...

When QuickDrain is installed with a curbless entrance, it creates an easy, seamless transition from dry to wet areas in the bathroom.

Universal Design & ADA Compliance
The roll-in shower is a hallmark of universal design, making the shower easily accessible to all ages and abilities in accordance with the Americans with Disabilities Act. It also provides a clean and expansive look, from traditional to modern aesthetics.

Improved Hygiene
A curbless QuickDrain shower can be designed with larger format tiles, reducing the number of grout joints and seams where mold, mildew and bacteria can take hold.

Flooring Options
There are nearly limitless design options, as QuickDrain makes it possible to use nearly any imaginable finish or flooring material.

and curbed showers.

Shower curbs can serve as the barrier between the shower pan and the rest of the bathroom floor.

Design Opportunities

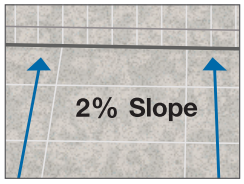

Allows for use of multiple tile formats throughout the bathroom. The design possibilities are limitless when mixing and matching patterns with the curb separating and framing the shower space

Layout Preference

QuickDrain installations with a curbed shower can give a bathroom a sense of separation from the rest of the room and help visually frame the shower area.

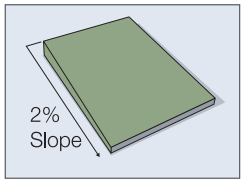

Simple installation. Wall-to-wall coverage.

One plane. No errors.
Instead of a four-way compound slope toward the drain, the QuickDrain shower system requires only a one-directional slope. This improves drainage, giving water one uniform path toward the drain, minimizing installation errors.

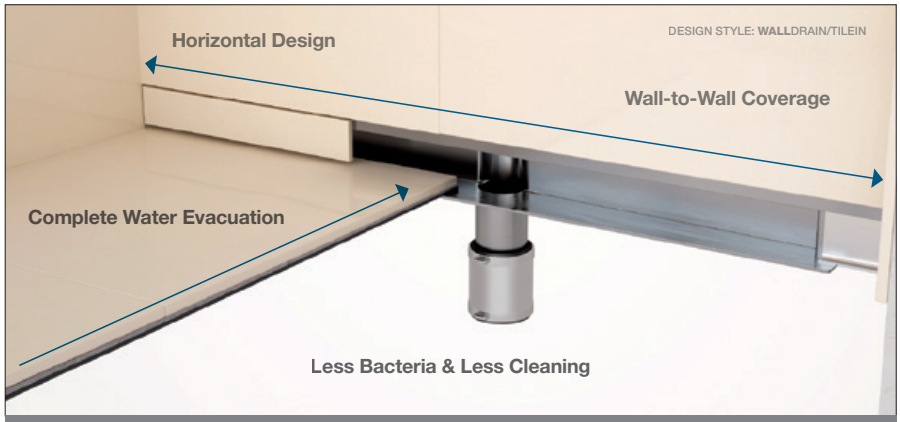

All in a matter of hours.
Projects with a traditional mud bed and pan liner application require a minimum of two days of construction, waiting for mortar to set. The QuickSlope panel system can be completely installed in less than one day.

Less labor.
The QuickDrain system allows installers to move on to the next job quickly. The pre-sloped PET panels eliminate the need to float a pitched mud bed and wait for it to cure, saving big on labor cost.

Complete Water Evacuation
Whereas a traditional center drain requires a custom slope from a variety of directions, QuickDrain is situated parallel to the shower entry, creating a single flat surface, with stable and consistent flooring. And, the drain sits shallow enough in the subfloor, eliminating the need to recess the entire shower floor.

Most importantly, QuickDrain's QuickFlow System creates wall-to-wall coverage and promotes the effective and efficient drainage of water.

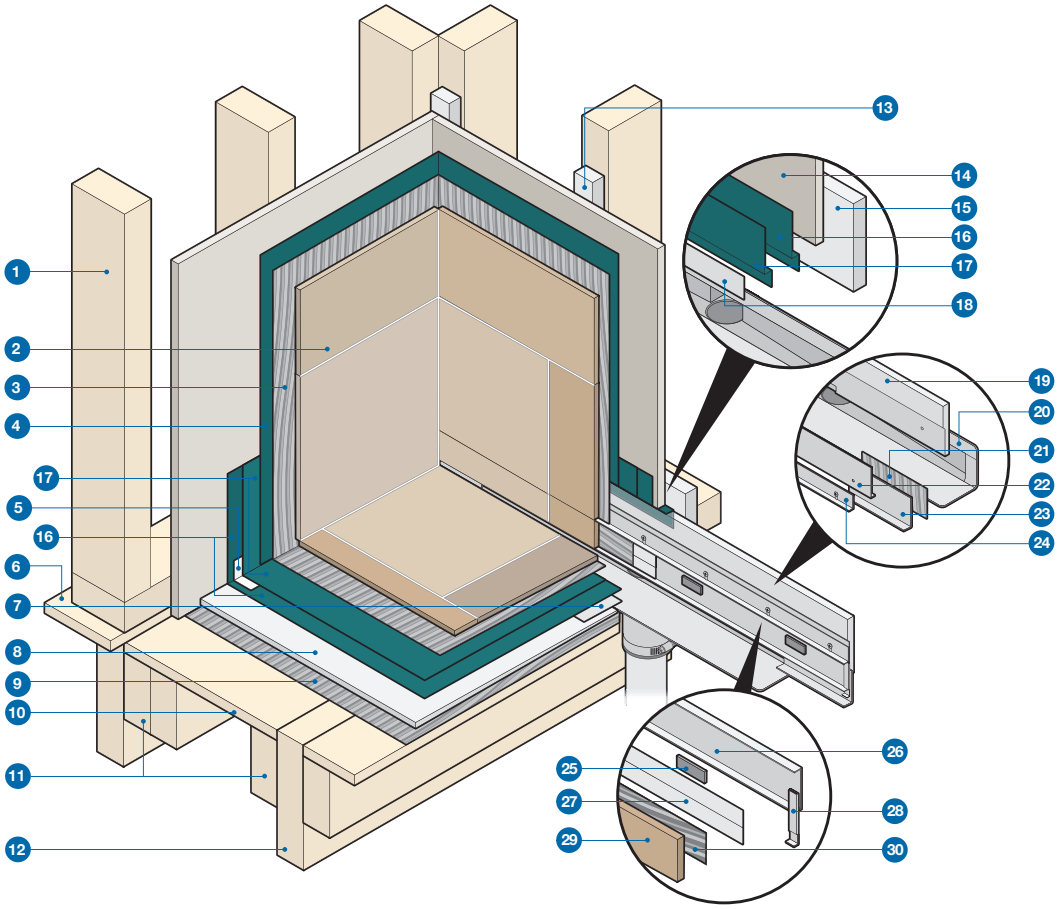

Drain extensions and covers ensure a perfect install each and every time, vertical-to-vertical surface. Both are easily trimmed at the job site.

The most complete in-wall linear drain system.

QuickDrain is a complete shower system that reimagines how a linear drain should perform and be installed. QuickDrain slashes construction time, saves on cost and minimizes impact on customers.

Example of WallDrain with Curbless Entry and Recessed Plywood Floor

1 Stud Wall
2 Wall Tile and Grout
3 Thin Set (for wall tile)
4 Liquid Wall Waterproofing
5 Reinforcing Fabric
6 Transition Tape
7 Original Subfloor
8 Slope Panel
9 Thin Set
10 Recessed Subfloor
11 Blocking Support
12 Floor Joists
13 Furring Strips
14 Backer Board
15 Vertical Installation Panel
16 First Layer of Shower Pan Liquid Waterproofing
17 Second Layer of Shower Pan Liquid Waterproofing
18 Transition Tape
19 Adjustment Panel
20 Drain Body
21 Thin Set (for extension)
22 Magnet Cover
23 Extension
24 Tile Edging
25 Magnet
26 Tile-In Cover
27 Transition Tape
28 Stand Off
29 Tile
30 Thin Set (for Tile-In)

Unmatched flexibility. Total customization.

No two shower installations are exactly alike, but QuickDrain can adapt to job site conditions, allowing installers to create an ideal shower for their customers.

WallDrain comes in the following lengths: 48" 72" 96" 144"

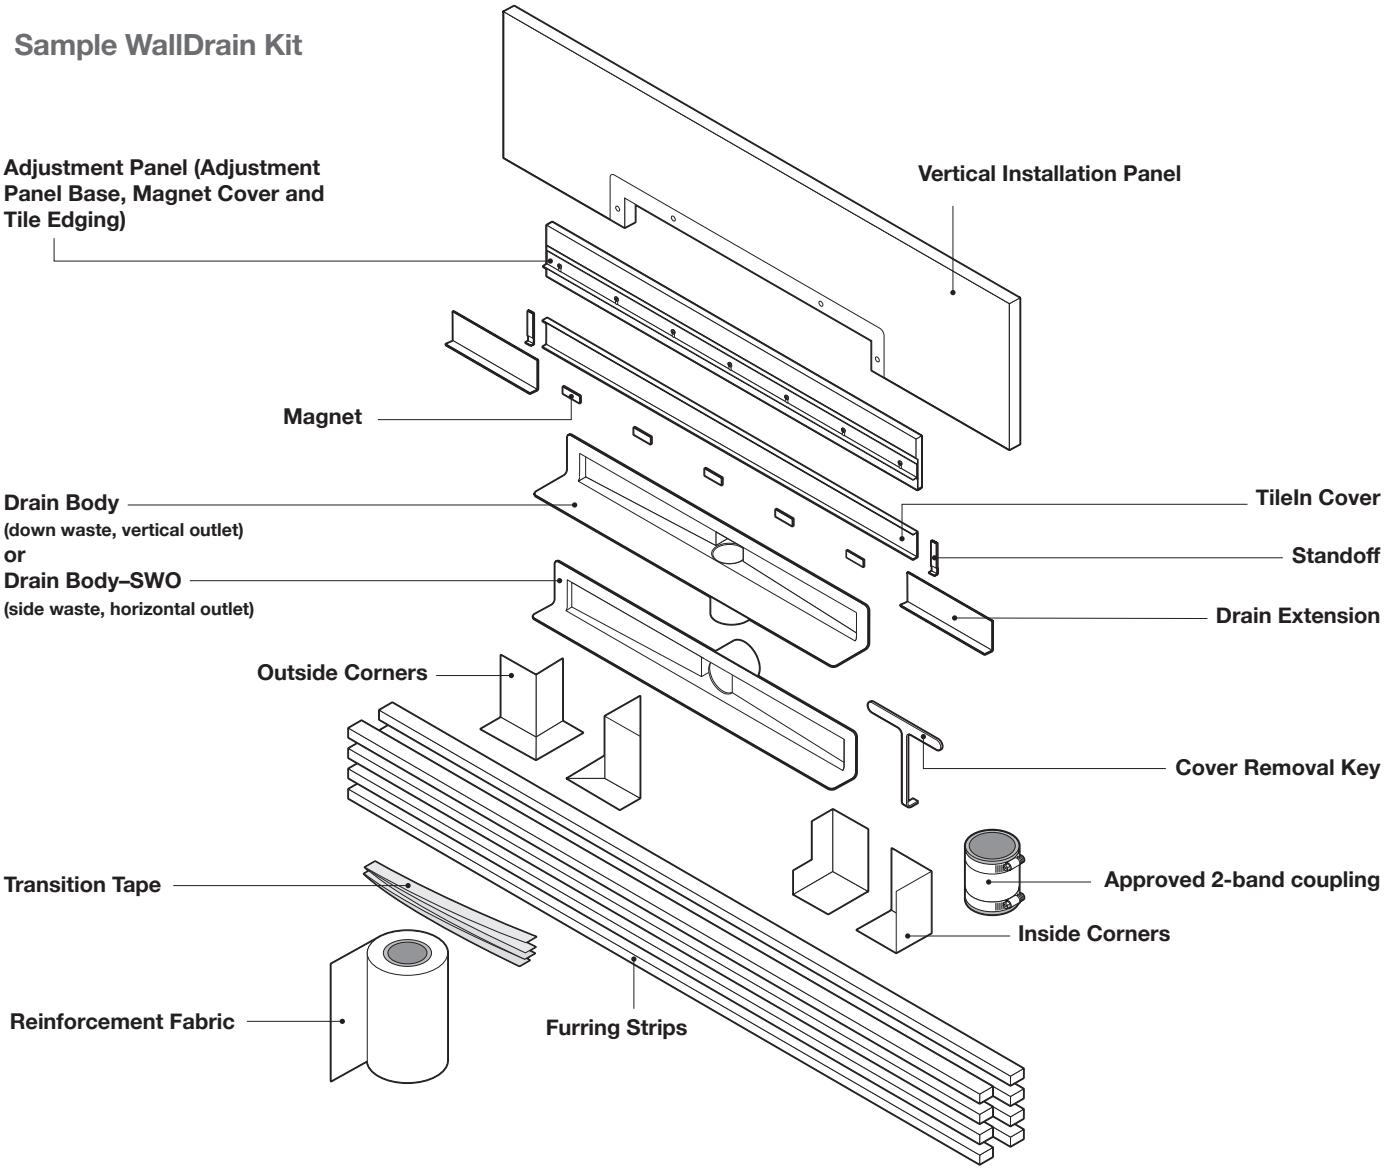

WallDrain kits can be trimmed onsite for convenient adjustability. Each WallDrain kit is available with either a vertical or a side (horizontal) waste outlet configuration. The WallDrain system is engineered to efficiently and effectively drain water from the shower.

Ideal Application	Drain Body Material	Sizes	Drain Capacity	Configurations	Waterproofing Options
• Hospitality • Healthcare • Residential • Multi-Family	• 18 Gauge 316L Marine Grade Stainless Steel	• **WALLD48** (Fits RO 26" TO 48") • **WALLD72** (Fits RO 26" TO 72") • **WALLD96** (Fits RO 56" TO 96") • **WALLD48-SWO** (Fits RO 26" to 48") • **WALLD72-SWO** (Fits RO 26" to 72") • **WALLD96-SWO** (Fits RO 26" to 96") • **WALLD144** (Fits RO 96" to 144") • **WALLD144-SWO** (Fits RO 96" to 144")	• Multiple drains can be linked together to accommodate greater water flow or larger shower sizes • Additional drain line(s) can be added to increase GPM	• Standard vertical drain waste outlet • Side waste outlet	• Topical Liquid • Hot Mop

*Actual volume determined by plumbing lines and P-trap
Note: RO = Rough Opening (distance from wall board to wall board)

Sample WallDrain Kit

Ordering WallDrain is fast & simple.

When you're ready, you'll contact your local QuickDrain USA dealer to place your order.

To make the ordering process seamless, complete the following simple steps to guide you through the process:

1. Verify structural integrity within shower footprint (level sub-floor and square framing).

2. Sketch the desired shower layout with measurements – include drain location and sub-floor material.

3. **WallDrain Selection - Choose the following:**
   a. Drain Body Length - 48", 72", 96", or 144" according to what will fit into the space.
   b. Waste Outlet - vertical or side (horizontal) waste outlet configuration.
   c. For non-standard sizes, multi-waste outlets and more, QuickDrain can help you customize a drain body. Please contact us at info@quickdrainusa.com.

4. **Waterproofing Accessories** – WallDrain assembly kits include standard liquid waterproofing accessories necessary for a curbless application. Additional accessories can be purchased separately. The actual liquid will be supplied by the installer.

5. To make installation even easier, consider QuickDrain QuickSlope PET panels, available for both curbed and curbless applications.

Technical Support & Job Site Assistance

Our team is able to provide expert on-site instruction and support. We also help by providing early design drawings to get your project started off right.

Commitment to community.

As part of our commitment to minimize our environmental footprint, we use 100% recycled plastic bottles (Polyethylene Terephthalate or PET) to manufacture our QuickSlope shower panels. These non-reactive, economical and shatterproof parts do not degrade over time and perform even under the toughest conditions at 145 PSI.

If you're looking to obtain LEED certification for your next project, please contact a QuickDrain representative to hear about our selection of environmentally conscious products, which may qualify for LEED points.

20 million+

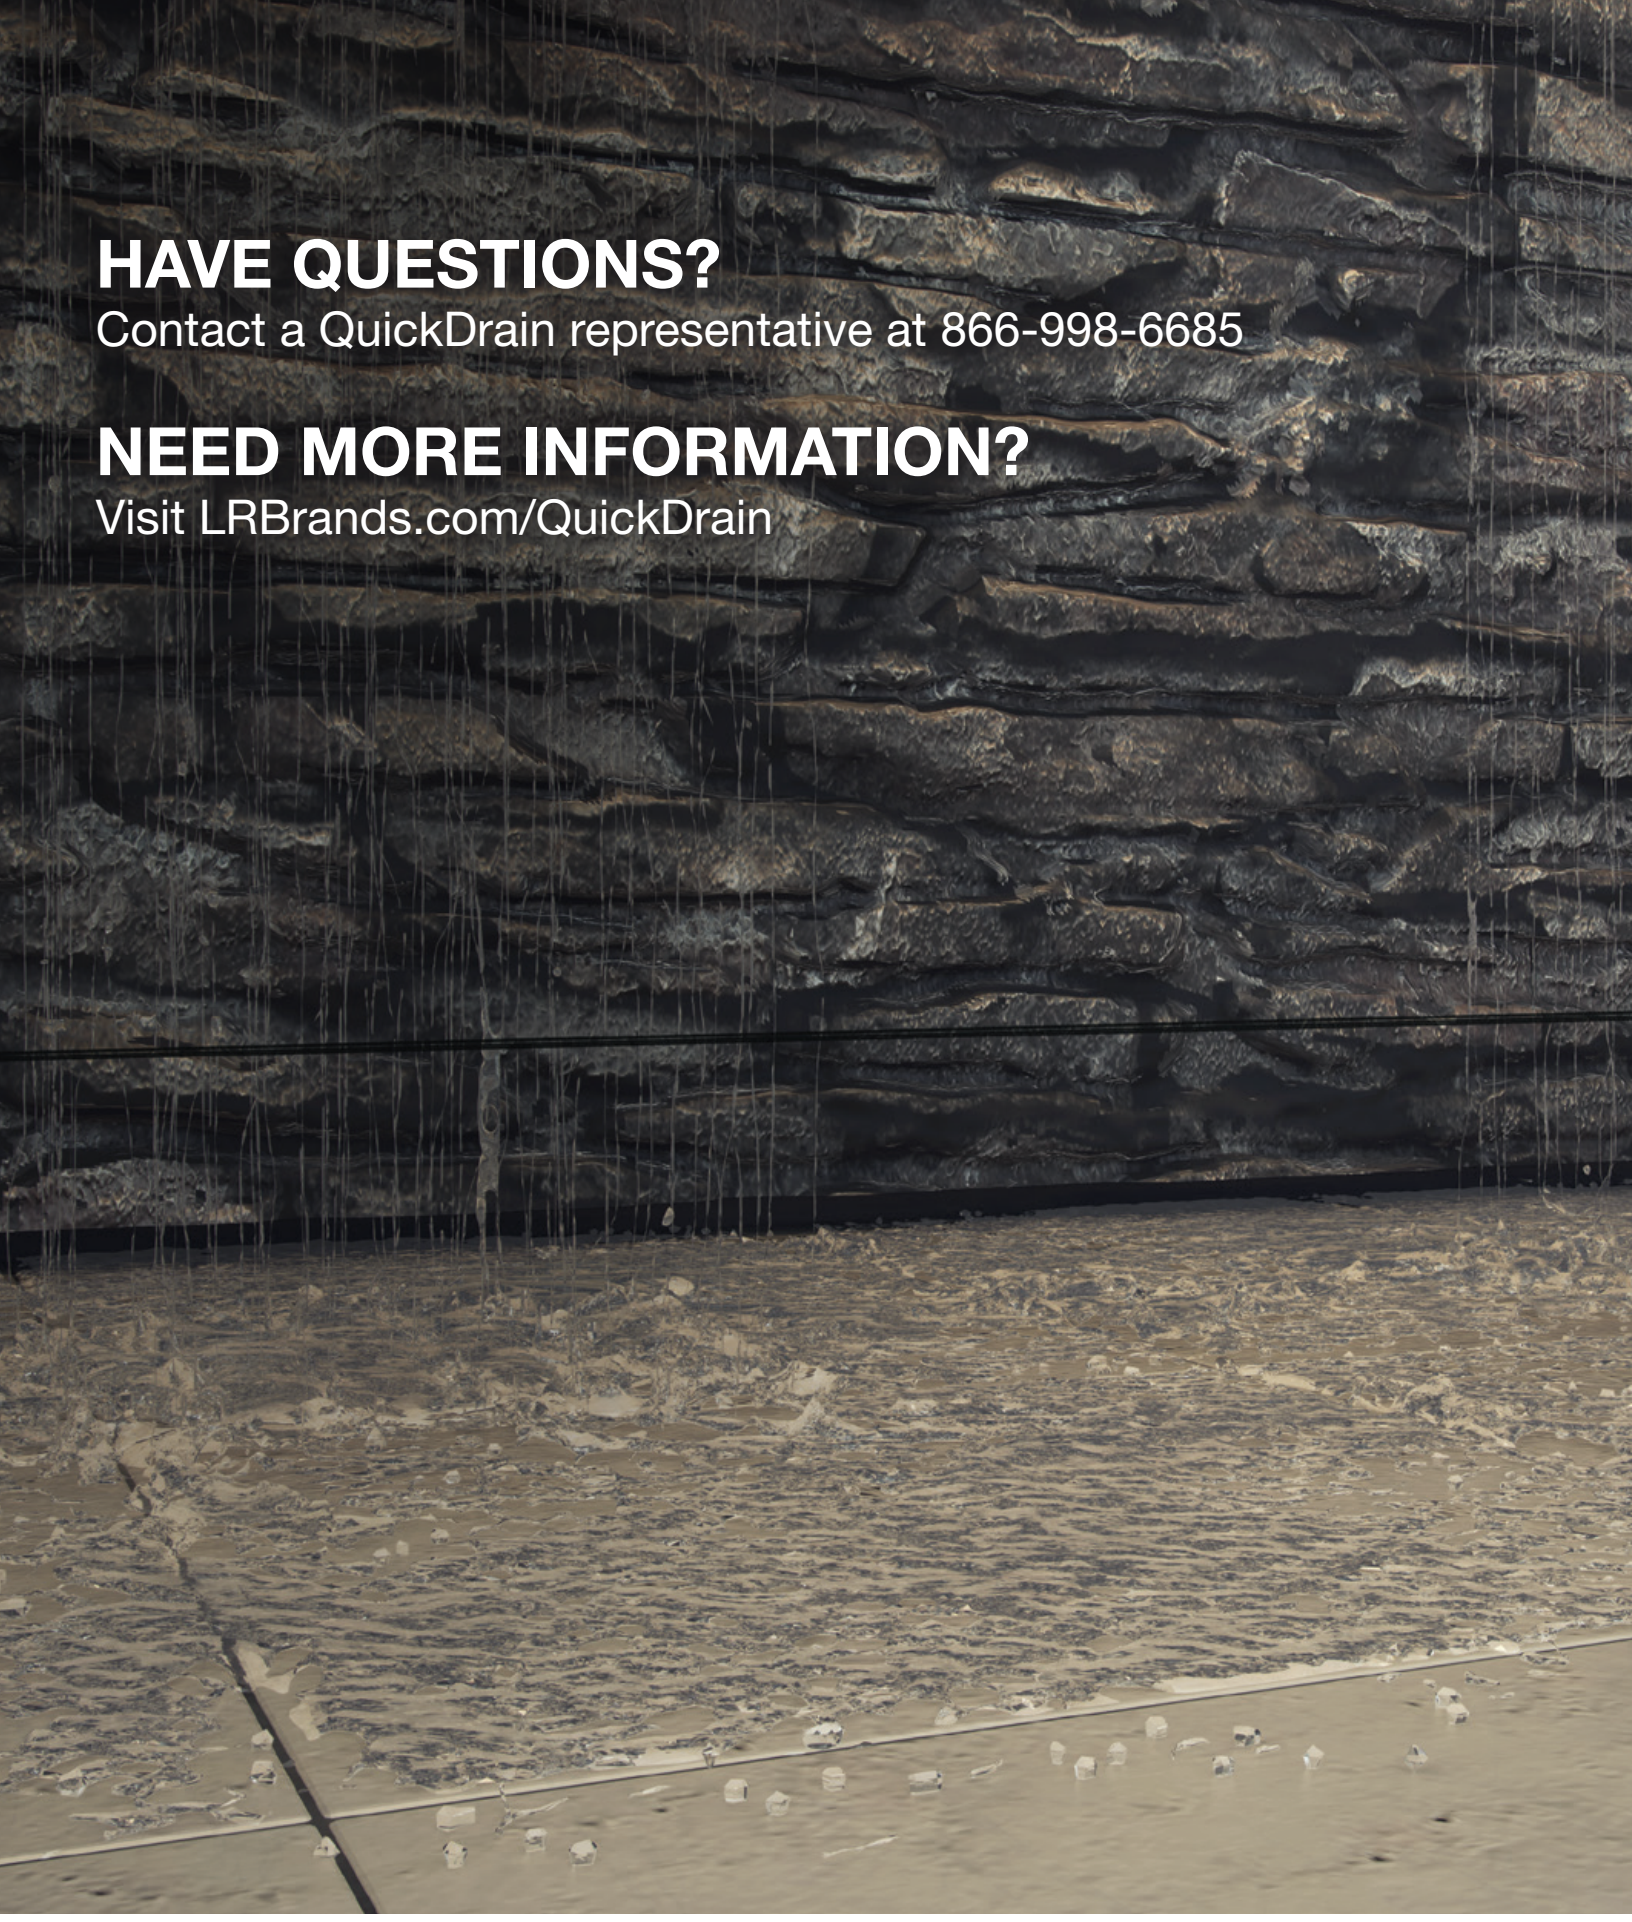

Plastic Bottles Recycled

For every QuickDrain shower panel installed, 450 plastic bottles are saved from landfills – 20 million bottles and counting.

QUICKDRAIN QUICKSLOPE PET PANELS ARE MADE FROM 100% RECYCLED PLASTIC.
