

An aerial photograph of a modern outdoor space, possibly a patio or walkway, featuring several different drainage products. On the left, there is a long, narrow, perforated metal grate. In the center, a cylindrical metal pipe runs vertically. To the right, a hexagonal metal grate is set into the ground. In the bottom right corner, a square grate with a wavy, undulating pattern is visible. The background shows a paved area with some greenery and a portion of a white car.

TREND GUIDE

A more sophisticated shower solution.

Sophisticated Style

Design is an integral part of the QuickDrain experience. Elegance and performance working together in tandem, a seamless blend of style and engineering.

Total Shower Solution

Beautiful design is one thing. Pairing it with superior performance is another. Every engineering and design choice was intended to make QuickDrain as efficient as it is appealing and are flexible for use at the job site. With pre-sloped PET panel kits, QuickDrain shower systems can be installed in a matter of hours.

Sustainability

As part of our commitment to minimize our environmental footprint, we use 100% recycled plastic bottles (Polyethylene Terephthalate or PET) to manufacture our QuickSlope shower panels. These non-reactive, economical and shatterproof parts do not degrade over time and perform even under the toughest conditions at 145 PSI.

The Future of Curbed and Curbless

QuickDrain can be installed with a curbless entrance, creating an easy, seamless transition from dry to wet areas in the bathroom. It is also an attractive choice for showers with a curb serving as the barrier between the shower pan and the rest of the bathroom floor.

SQUARE DRAIN

Square Drain is an elevated point drain shower system that stands out from the rest for its design, ease of use and versatility – helping homeowners, designers and installers create a spa-like bathroom experience.

SHOWERLINE & PROLINE

From wall-to-wall, QuickDrain linear drain systems provide total surface coverage, improving water evacuation. With a variety of styles to choose from, there are a myriad of ways our linear systems can turn the average bathroom into a welcome break from the everyday.

WALL DRAIN

WallDrain offers the ultimate in shower luxury and design innovation, pushing performance to its limit. Because WallDrain is built into the wall instead of the floor surface, it offers a totally concealed and sleek look. You've never seen a drain like this before!

Complete your shower with the perfect finish touches.

From modern designs to shabby chic trends, add the perfect finishing touches to your shower design with one of QuickDrain's decorative drain covers.
